# PRODUCTION CAPABILITY

## PT DUA NAGA KOSMETINDO

Skema kerja sama dengan kami bisa dengan jalur praktis siap rilis (ODM) dan jalur kustom eksklusif (OEM)

### **OEM** Original Equipment Manufacturer

OEM adalah sistem di mana client membawa ide atau konsep produk impiannya sendiri. Pihak pabrik (maklon) kemudian akan melakukan riset mendalam, menentukan formula, dan meracik sampel yang presisi sesuai dengan konsep dari client. Hasil akhirnya adalah produk yang unik dan eksklusif

### **ODM** Original Design Manufacturer

ODM adalah sistem produksi di mana formula dan konsep produk telah disiapkan oleh pabrik. Layanan ini sangat cocok untuk Brand Owner yang ingin fokus pada pemasaran dan mengejar kecepatan produksi agar produk bisa segera launching ke pasaran tanpa pusing memikirkan development dari nol.

**Tabel di bawah ini hanya mencakup kapabilitas ODM.**  
**Untuk produk OEM, tim R&D kami akan meriset formula baru khusus untuk brand Anda.**
